

HRIŠĆANSKO UDRUŽENJE BEOGRAD

BIBLE SCHOOL IN SERBIA

CHALLENGE - FULFILMENT

MINISTRY - GROWTH

FIRST year

The first-year school curriculum includes an examination of every book of the Bible, practical mission experience and studying systematic theology.

Central subjects are all the books of the Bible, systematically taught by the teachers. During this time, students take part in: around 1000 hours of lectures, write essays on every Bible book and on topics like spiritual growth and ministry, complete 6 written exams on the Bible books, prepare 6 psalms for public presentation and read compulsory literature.

This is a very intensive programme that demands a lot of work, but which is created so that the student gets a wider insight into the message of the Bible, so that he is able to pass it on to others.

The programme is open to everyone, those who want to actively devote themselves to ministry or those who want to get a solid Bible foundation in order to continue studying at colleges, as well as those who wish to dedicate one year to personal spiritual growth.

Bible School - The Beginnings

Since 1996, when the Bible school work started in Bački Petrovac, more than 250 students have finished the one-year school programme. Today, many of these students are involved in: ministry in their churches, church planting, leadership in various services etc. Along with launching of the Bible school ministry, a vision was born and developed, to move the school closer to the capital. Now, it is exactly five years since we moved to Belgrade.

Since the last year the school has also started the second-year programme, designated for all former and current students who would like to get practically and spiritually equipped for the challenges of the church and mission work in the region. The HUB Bible school ministry is improving every year, with the aim to be a blessing and be maximally useful to churches, believers and others.

Mission conference 2006 – 10th anniversary of the school
